

Friday | 09th June 2023

Symposia Session 4	
9:00 - 10:30	N1 S018 – How Does The Brain Integrate Audiovisual (Speech) Information? Evidence From Neuroimaging Studies In Normal-Hearing And Hard Of Hearing Individuals. <i>Chairs: Christiane Thiel, Stephanie Rosemann</i>
	N2 S19 - Ways Out Of The Replication Crisis: Increasing Precision In Biological Psychology (IGOR-Symposium) <i>Chair: Mario Reutter</i>
	N6 S20 - Prefrontal Cortical Function And Neuromodulation In Mental Disorders <i>Chairs: Beatrix Barth, Thomas Dresler</i>
	N9 S21 - Emotion Regulation in Context: The Impact of Individual Differences, Stimulus-Intensity, Estradiol and Training on Brain Networks and Connectivity <i>Chair: Carmen Morawetz</i>
	7E02 S22 - Transcranial Magnetic Stimulation, Transcranial Ultrasound, and Transcranial Electrical Stimulation as Non-Invasive Neuromodulation Tools for Translational Neuroscience and Applied Psychophysiology <i>Chairs: Katharina Rufener, Friederike Breuer</i>
10:30 - 11:00	Foyer Coffee Break
10:30 – 11:00	N2 IGOR Roundtable
Symposia Session 5	
11:00 - 12:30	N1 S23 - How Virtual Reality Can Enhance The Study Of Emotional Processing And Human Behaviour: Exploring Novel Methodologies And Discussing Limitations. <i>Chair: Alexandros Kastriogiannis, Marta Andreatta</i>
	N2 S24 - Brain-heart Interactions in the Context of Safety and Threat <i>Chairs: Erik M. Mueller, Mathias Weymar</i>
	N6 Panel Discussion: Registered Reports <i>Chairs: Anne Gärtner, Stephan Nebe</i>
	N9 S25 - The Benefit of Physical Exercise to the Formation of Memories: What is the Role of Stress and Sleep <i>Chairs: Gordon B. Feld, Simon Steib</i>
	7E02 S26 - Mechanisms Of Processing Faces And Facial Expressions <i>Chairs: Enya Weidner, Martin Wegrzyn</i>
12:30 - 13:30	Foyer Lunch
13:30 – 15:00	Foyer Poster Session 2
Symposia Session 6	
15:00 - 16:30	N1 S27 - Two sides of the same coin? Alpha oscillations and sleep spindles - a dynamic duo for memory consolidation? <i>Chairs: Jan Weber, Marit Petzka</i>
	N2 S28 - Acute And Chronic Effects Of Different Stimulant Drugs On Affect, Cognition, And Behavior <i>Chairs: Ann-Kathrin Stock, Boris Quednow</i>
	N6 S29 - Internal Representations of Our Environment: From Episodic Memory to Value-Based Decisions <i>Chairs: Philipp C. Paulus, Heidrun Schultz</i>
	N9 S30 - Tackling the Garden of Forking Paths in the Preprocessing and Analyses of Neurophysiological Data <i>Chairs: Nadine Svenja Josée Jacobsen, Daniel Kristanto</i>
	7E02 S31 - Affect, Attributions and Meta-cognition - Behavioral Neuroscience Perspectives on Self-efficacy <i>Chairs: Frieder Paulus, Peter Dayan</i>
16:30 - 17:30	Foyer Coffee Break
17:00 - 18:00	N6 Keynote Neural circuits and metabolic pathways on the link between stress, anxiety & motivation Carmen Sandi
18:30 – open end	Social evening at the Freistil Taproom
